Competition Format and Rules

竞赛形式与规则 / Format et règlement des compétitions
As of SUN 23 JAN 2022

OLYMPIC COMPETITION FORMAT

There are four events in the luge competition at the Olympic Winter Games Beijing 2022: men's singles, women's singles, doubles and team relay.

Scoring

Men's singles and women's singles events consist of four runs over two consecutive days, while the doubles event consists of two runs on one day. The competitor or team with the lowest aggregate time for all runs is the winner.

The team relay consists of a single run for each team, which is composed of a woman, a man, and a doubles team. Each team member competes in turn, using the finish pad to signal that they have completed their run.

Tied athletes/teams (to an accuracy of 1/1000th of a second) will be ranked as equal.

The time is measured by whatever part of the slider or sled first breaks an electronic beam at the start and finish of the course.

In order for a run to be considered official, the slider must cross the finish line in contact with the sled. It is not allowed to walk, push or paddle to reach the finish line.

Sled description

The primary components of the racing sled are: two composite runners, two steel blades, seat pod and two undivided bridges. Steering must result from the above-mentioned sled components.

The weight for a single luge sled is 21-25kg (46.3-55.1lbs) and for a doubles luge sled is 25-30kg (55.1-66.1lbs). The maximum width of a singles and doubles sled is 550mm (21.65 inches).

The racing pod may not exceed a height of 120mm (4.72 inches) for a single sled and 170mm (6.69 inches) for a doubles sled. In the rear of the sled, the pod must not extend past the shoulders of the athletes, and in the front, the pod must not extend forward of the knees.

Temperature of blades

The temperature of the blades on each competitor's sled may not be greater than five degrees centigrade warmer than the control temperature taken from the anchored runner. Should the temperature of the control blade fall below -5°C, the blade temperature may continue to be 0 degrees C (+32 degrees Fahrenheit). After the temperatures have been taken of a competitor's steel runners, the sled may not be removed from the designated start area nor the sled exchanged or the blades warmed.

Timing

The timing equipment is automatic and produces a start time, at least four intermediate times and a finish time, to an accuracy of 1/1000th of a second.

Start interval

Athletes must leave the start handles within 30 seconds (45 seconds for doubles) of the green light and acoustic signal, or they will be disqualified.

DIFFERENCES BETWEEN FIL WORLD CHAMPIONSHIPS AND THE OLYMPIC WINTER GAMES

International Luge Federation (FIL) World Championship and World Cup events have only two competition runs for all disciplines.

This is the most significant of several small differences.

CHANGES SINCE THE OLYMPIC WINTER GAMES PYEONGCHANG 2018

The total quota number of participating athletes has been reduced from 110 to 106 as follows: 35 men, 35 women, 18 doubles (36 athletes).

The timing equipment now produces four instead of three intermediate times.

SPORT RULES AND PROCEDURES

Equipment

All items of race clothing must conform to the body contours of the competitor. A neck strap is permitted to help an athlete hold his or her head up under the high G-forces experienced, but it cannot lead to an aerodynamically improved form of race clothing. Athletes can be disqualified for losing any item of clothing other than the face shield during a run.

Spikes, which help with 'paddling' at the start, may be worn, and can be a maximum of 5mm (0.19 inches) long. Wearing a safety helmet and luge shoes according to FIL guidelines is mandatory.

Race procedure

At the start of a race, the temperature of the steel blades is checked. The total weight of the sled and the athlete is also checked. The cavities/gap between runner and steel will be checked and the start number and race equipment are checked visually.

Competition can continue to be held in temperatures as low as -25°C (-13°F).

Starting order

Training:

In the women's singles and men's singles, NOCs will be placed into training groups (A and B) and drawn within the groups. Doubles will be one group, with NOCs drawn for start order.

- For training day 1 (run 1 +2): training by groups according to draw of NOCs.
- For training day 2 (run 3+4): training by groups in reversed order of drawn NOCs.
- For training day 3 (run 5): no groupings. All NOCs according to a new draw.
- For training day 3 (run 6): reversed start order from run 5.
- For all training, athletes from the same NOC will remain in the same start order.
- Additional training runs can be added if required by FIL officials.

Competition:

All athletes will be seeded into four groups (A: 1-12; B: 13-24; C: 25-36; and rest group) based on World Cup rankings from the three previous World Cups. There will be draws for each seeded group and for athletes ranked 37th and lower.

Men's and women's singles:

- First run: 1-12 (1-6, 7-12) (A), 13-24 (B), 25-36 (C), 37 to last start number
- Second run: 12-1 (A), 24-13 (B), 36-25 (C), last start number to 37
- Third run: 1 – last place (according to placing after second run)
- Fourth run: top 20, by reverse order of rankings after third run
- Athletes who do not qualify for the fourth competition run will be ranked according to their placing in the third competition run

Doubles:

- First run: 1-12 (A), 13-24 (B)
- Second run: by reverse order of rankings after first run

Team relay:

- By order of the nation ranking for team relay, in reverse – last-placed nation to first-placed nation

Only the best-ranked athlete/double team (one woman, one man, one double) in their OWG individual disciplines per NOC are used to create the nation ranking list for team relay.

Forerunners

The number of forerunners depends on the decision of the race director, however, there are normally one to three forerunners before each run.

Tiebreak rules

All athletes/doubles/teams will receive the same placing in the case of a tie.

Technical control (weight, equipment)

The control of additional weight and race clothing, control of the runners, as well as the measurements of the sled takes place at the finish as follows:

Men's and women's singles: first and third run, three from group A, three from the rest of the competitors; second and fourth run, no draw for controls; the top three ranked athletes after run 2 and 4 are to be controlled.

Doubles: first run, three drawn athletes from all competitors; second run, no draw for controls; top three ranked athletes after run 2.

During the second and fourth runs of men's and women's singles, and the second run of doubles, the steel temperatures of the best 10 ranked athletes from the first and third runs will be controlled.

Additional information for team relay:

Before the start of competition in the team relay, the technical delegate, with one jury member, will make a random draw for a team with an athlete for suspension check of the sled. For the top three ranked teams there will be a one red light (from a random generator) per team. This sled will be checked. For the remaining teams there will be one red light per pair of teams. For an uneven number of participating teams, the first starting team has the same chance of drawing a red light as if it was an even number of teams. Checks by red light will be the same as for the other events.

Check of blade temperature (general for all events)

There will be a check of blade temperature at the finish for the top three ranked teams.

Penalties/disqualification rules

The three medal-winning sleds in each discipline will be checked immediately after the last run. Upon the findings and recommendations of the technical delegates, it is possible the race director can disqualify a sled after the end of a competition.

Protests/appeals

In accordance with the International Luge Regulations (IRO), if a participant believes they are at a disadvantage due to factors that have occurred during a competition, their team captain has the right to protest.

The jury decides on all protests. Protests must be made in writing and must be signed by the team captain or the team captain's representative. The protest must be made to a jury member and a protest fee of 50 euros is to be paid when the protest is submitted.

The written protest must be verbally announced within five minutes and submitted within 10 minutes of the completion of the competition run in question. The jury must then meet within one hour of the submission of the protest.

If the reason for the protest is first known after the 10-minute period has expired, the jury must deal with the protest and observe the final deadline for submission of a protest, which is the conclusion of the competition (victory ceremony).

The jury may call on all persons and items connected with the protest to help clarify the circumstances.

In the case of a protest, the jury must decide whether evidence (films, pictures and video records) may be presented. However, this material is only used to help in making a decision.

The decision of the jury in all protests is final. It may not be appealed or postponed.

The protest fee is returned in its entirety if the protest is decided in favour of the protesting party. If the protest is denied, the protest fee is forfeited and is given to the organisers of the event.

If events or occurrences in violation of the IRO artificial track are discovered after the conclusion of the competition, the FIL Executive Board will make the decision in these cases.

Rule book

Rules may be changed every two years, with the latest edition being two years before the Olympic Games (for Beijing 2022, IRO 2020 will apply). Rules may only be changed at other times if there is a need due to safety concerns.
